

Approval: 10th Senate Meeting

Course Name : Design Practicum II
Course Number : DP502P
Credit : 0-0-4-2
Prerequisites : DP501P
Students intended for : M.Sc. (Chemistry)
Elective or Compulsory : Core

Course Description

This course is offered to the second semester M.Sc. (Chemistry) students, wherein each student is assigned to a faculty mentor and performs a short research project under their guidance. The students do literature survey and short research works on the assigned research problem and present their works in open seminars.

Course Evaluation

Two seminars (mid-term and final presentations) of 50% each evaluated by an internal committee.
