

Alumni Achievement Announcement on Social Media Platforms of the Institute

Hearty congratulations to Dr. Ashish Tiwari on becoming the NSF-ART program ambassador

We are delighted to announce that Dr. Ashish Tiwari (PhD 2015-2020 batch), an alumnus of IIT Mandi, has been awarded the prestigious Institute for Engineering Driven Health (IEDH) Postdoctoral Researcher Award for the year 2024-2025. This award is co-funded by the US National Science Foundation Accelerating Research Translation (NSF-ART) program and the University of Delaware, USA.

His selection as an NSF-ART program ambassador highlights his exceptional research in translational medicine and cancer therapy. The NSF-ART program aims to speed up the translation of academic research into public benefits, focusing on regional innovation and training postdoctoral researchers for diverse careers.

Dr. Tiwari has received second entrepreneurship grant in the field, following his 2022 award from TEVA Pharmaceuticals and Technion-IIT in Israel.

We are incredibly proud of him and hope his success will inspire our students and research community at IIT Mandi.

For more information about the NSF-ART program, please visit [NSF-ART Program](#).

Once again, ***many congratulations to Dr. Ashish Tiwari!***
