

## **IIT Mandi Alumni Donated Rope for Cricket Boundary to Support Campus Sports Facilities**

In a commendable gesture of support for their alma mater, the alumni of IIT Mandi have donated a cricket boundary rope to enhance the sports infrastructure on campus. This contribution has been made by a group of dedicated alumni that reflects their commitment to fostering sports and recreational activities inside the campus.

The newly donated boundary rope will be used in the cricket field, providing a much-needed upgrade to the existing setup. This addition will benefit student players participating in sports events, including the recently held Rann-Neeti festival and other sports meets throughout the year.

On behalf of the Institute, the DORA office is expressing gratitude to the alumni, highlighting this as a valuable example of how alumni contributions can directly improve campus facilities. "Such contributions not only uplift our infrastructure but also strengthen the bond between alumni and their alma mater.

This donation is a testament to the strong alumni network of IIT Mandi and their willingness to give back to the Institution. The Institute looks forward to continued support and engagement from its alumni in furthering its mission to provide an enriched campus experience for all students.
