

International Conference on Composites: Design, Processing, Manufacturing and Health Monitoring (CDPMHM 2024), during 20-21 June 2024 at IIT Mandi

IIT Mandi is organizing an international conference on **Composites: Design, Processing, Manufacturing and Health Monitoring** from June 20-21, 2024

Composite materials have large scale commercial applications in marine applications, aerospace, automotive, boating, Defense, sporting goods, infrastructure, energy storage, biomedical etc. In the recent years, the development of new and improved composites has caused unlimited product development opportunities. This conference will provide a platform to young researchers to present their ideas and learn from the eminent scientists from the globe. The deliberations in conference will be in terms of oral as well as poster presentations. Besides this there will be keynote lectures by the leading experts in the field. Selected papers from the conference will be published in Scopus indexed scientific journals.
