

Skill/Trade Test for the Post of Junior Laboratory Assistant (Technical)
School of Chemical Sciences
Post Code- 003
Advertisement No. IIT Mandi/Recruit./NTS/2025/05 dated 17.12.2025

Stage II: Skill/Trade Test

Qualified candidates will be required to perform selected laboratory experiments and carry out the necessary calculations to obtain and interpret the final results. The experiments may include common laboratory practicals such as various types of titrations, spectroscopic measurements, organic and inorganic synthesis, melting point determination, and other standard analytical or synthetic techniques.
